LANGUAGES

KOREAN

ENGLISH

TOFEL 111 (2012.12)

TEPS 934 (2017)

WORK EXPERIENCE

2021.12 ~ present

KARI intern, DM Lab

Graduate school of AI

Research influence maximization problem using graph neural network

2021.06 ~ 2021.08

Project Intern, Redwit

Producing an automatic payment page using React, Redux, and Typescript

2021.07 ~ 2021.09

Research Intern, Prosys Lab

- Signature-based Static Analysis for Detecting Recurring Vulnerabilities (ICSE 2021, submitted, second author)

2021.02 ~ 2021.06

Research Intern, CDSN Lab

- Spatio-Temporal Attention based Conditional Traffic Flow Prediction in Urban Areas (ECML-PKDD 2021, rejected, second author)

서울시의 공간 이용에 따른 도로의 차량 속도와의 상관관계 분석 (KCC 2021, first author)

2020.07 ~ 2020.08

CS496 Seminar<Immersion Camp: Intensive Programming and Startup>

- Android app with java, MongoDB for MBTI tests and social platform
- React Native, React js, MongoDB for introducing world-wide movies by it's filmed pages

EDUCATION

2018.02 ~

B.S. in Computer Science

KAIST, Daejeon, Korea

2015.02 ~ 2018.02

Sangsan high school

Jeonju, Korea

- Second place in contest of mathematics of Sangsan high (2015)
- First place in 교과 심화탐구 역량대회 in mathematics (2016)

ADDITIONAL SKILLS

Programming: C++, Java, Python, Javascript, React-Native(api)

Experience: Android, MongoDB

RESEARCH INTEREST

I have tried many areas including machine learning,

programming language, and network programming. I am currently reaching out for new opportunities and trying to find out what is suitable to me.
